

# Corrections for Red Bulls

## Lot 74 Bullets

- 109 UREA ratio. 104 WWR. Top 8% HB. Top 7% GM. Top 5% CED. Top 6% BW EPD. Top 19% WW EPD. Top 11% YW EPD. Top 13% Stay. Top 15% Marb EPD. Top 7% RE EPD. Dam MPPA 101.6. Another big spread bull of Redemption X Packer with added carcass merit. We feel that the Packer daughters have taken a hard rap on their Milk EPD. In our herd their combined Nursing Ratio is a very respectable 99.5. Recommended for use on heifers.

## Lot 79 Bullets

- 117 %IMF ratio. 106 UREA ratio. Top 5% HB. Top 9% GM. Top 5% CED. Top 9% BW EPD. Top 5% Stay. Carcass and calving-ease here, with genetics from our Black Angus herd. Recommended for use on heifers.

## Lot 86

- Recommended for use on heifers.

## Lot 94

- 105 %IMF ratio. 107 UREA ratio. 105 WWR. 104 YWR. Top 11% GM. Top 8% CED. Top 17% WW EPD. Top 10% Marb EPD. Top 8% RE EPD. Dam MPPA 100.2. Maternal traits with impressive carcass merit. Cow Bull.

## Lot 95

- 78 lb. birth weight.

## Lot 97

- Recommended for use on heifers.

## Lot 98

- Recommended for use on heifers.
